Achieving Qi™
A Quantum Leap Forward in Nutritional Supplementation

Qi™ is the world’s first line of targeted organic whole-food supplements that use Bio-Transformational Technology to ingeniously support your wellness!

Qi™ (pronounced “kee”) is an evolutionary breakthrough in the world of nutritional supplements. It is the result of over 34 years and millions of dollars of scientific research, development, and clinical application.

Qi™ is a line of wholefood supplements derived from proprietary extracts of the Hericium Erinaceus mushroom, commonly known as Lion’s Mane. Qi™ represents a quantum leap forward in nutrition. It replaces the need of mix-and match multiple products through Bio-Transformational Technology™. This process infuses a myriad of powerful bio-active ingredients into a singular whole-food source by controlling its growing medium. The science behind the process is unparalleled, and the results are spectacular.

All Qi™ products deliver at least 38 organic health-promoting bio-active factors and co-factors that are blended and balanced naturally. Qi™ works synergistically at the cellular level to support your entire body. Each product is fortified with proven chinese herbs to focus on specific challenges with measurable impact.

Qi™ delivers a wide array of fully bio-available vitamins, systematic enzymes, essential glycomes, specialized proteins, fatty acids - plus a newly identified Biological Response Modifier (BRM) that intelligently supports your body’s major systems and functions.

Qi™ employs no synthetic ingredients. The organic components are naturally concentrated from a single-source whole-food that is produced intentionally to be readily bio-available to your body.

Qi™ originates from the Zaipei strain of Lion’s Mane discovered in 1983 in the mountains of Central China. It has superior bio-activity to other varieties of Lion’s Mane native to North America, Europe and Asia – a fact that motivated He Shu Jin, the Champion of Qi™ and founder of a large pharmaceutical manufacturing company.

He Shu Jin has dedicated over 34 years into the development of Qi™. Supported by decades of laboratory science, university research, and clinical application, in 2014 he built a multimillion-dollar US facility specifically designed and dedicated to produce and manufacture the raw material that is now Qi™. It is remarkable!

Lion’s Mane and Medicinal Mushrooms
Culinary and medicinal use of mushrooms in Chinese culture dates back over 2,500 years. Lion’s Mane is the most popular medicinal mushroom due to its complete nutritional makeup and bio-activity. Its unique physiological properties made it a perfect host for bi-directional transformation, meaning it is significantly influenced by its growing medium to deliver targeted results.

Lion’s Mane in the Marketplace
The majority of Lion’s Mane is harvested in the wild, and a few commercial facilities do grow medicinal mushrooms. Other products simply don’t compare. Qi™ is the only Lion’s Mane product that uses Bio-Transformational Technology in the marketplace - it is truly peerless. Choosing Qi™ is similar to choosing a Ferrari over a Chevy... only without the price differential!
Qi™ { DEFEND } bio-transformational nutrition

Qi™ { DEFEND } is a foundational formula you take daily to support and enhance your immune and digestive system. The natural matrix of organic glycomes, beta glucans, polysaccharides, enzymes, vitamins, minerals, and 30 more essential metabolites work synergistically at the cellular level to support your daily wellness like no other product that is available anywhere!

Qi™ { DEFEND } is a next-generation supplement with a Biological Response Modulator (BRM) which intelligently supports your immune system whether it is overactive or underactive in its functionality.

Your ability to efficiently digest and eliminate what you eat for maximum nutrient absorption is fundamental to your health. Experts point out that 80% of your immune system function is in your “gut.” For consistent daily health, your gut MUST function properly!

Bloating, indigestion, and constipation are just three symptoms that your digestive and immune system are compromised.

Qi™ { DEFEND } works to restore, repair, and recover function for you.

Qi™ { DEFEND } Benefits:
- Supports strong immune system
- Better stamina, lower stress, less fatigue
- Supports digestive function
- Repress and repair free radical damage
- Non-GMO and Gluten-Free

---

Qi™ { NOOTROPIC } bio-transformational nutrition

Qi™ { NOOTROPIC } is bio-engineered with Bio-Transformational Technology™ to support and improve cognitive and executive functions such as memory, creativity, and motivation.

Qi™ { NOOTROPIC } is a product you really “feel” that supports cardiovascular and cerebrovascular function. It cuts through your daily brain fog to help you think more clearly with better focus and attention to detail.

There is a flood of scientific studies in just the last decade that shed light on the innate effects of Lion’s Mane to positively impact cognitive function.

The growing medium (substrate) of Qi™ { NOOTROPIC } is infused with proven Chinese medicinal herbs, which significantly increase the number and potency of bio-active micro-molecules in the final product.

Qi™ { NOOTROPIC } contains no stimulants, caffeine, or synthetic ingredients.

Designed to be taken daily, Qi™ { NOOTROPIC } gives you the edge you need to be clear, creative, and brilliant.

Qi™ { NOOTROPIC } Benefits:
- Supports cognitive and executive function
- Better memory, creativity, and motivation
- Enhanced mood and vigor support
- Repress and repair free radical damage
- Non-GMO and Gluten-Free
